ESSILOR PUBLISHES ITS ANNUAL REPORT 2016-2017

Explore the Group's strategy, performance and 2016 highlights in prevention, protection and vision correction for the 7.4 billion people in the world.

Whether it's helping a myopic schoolgirl, educating Generation Y on screen-use or ensuring seniors protect their eyes from UV, people's visual health needs drive Essilor's mission to improve lives by improving sight.

Including an insight into 10 things to know about Essilor, this year's Annual Report also covers many aspects of the Group's activities worldwide including:

- > its open innovation system and research into smart eyewear
- > global reach through integrated supply chain and multi-channel distribution
- > how it contributes to the UN's 2030 sustainability goals
- > the unique community of people who deliver our mission

In addition to print, pdf and online flip-books in French and English, you can also get a digest of Essilor's Annual Report in an easy-to-access digital read format - including key figures, slideshow highlights and perspectives from senior management.
